

Learning Irish Is Easy & Fun @ Coláiste UISCE!

Morag Mc Gowan, a chara,

At UISCE we understand that motivating your students to learn Irish can be hard work. We can give your students a new perspective of the Irish language through sport & adventure activities. This then opens their mind towards learning the language in the classroom during the school year. We aim to make your trip as hassle-free as possible, from the initial consultation right down to getting the students into bed at night! **Teachers @ UISCE – Your wish is our command!**

We are now open for school tours from mid-February. Special offer: Now only €150 per student (2 nights with a group of more than 20+) for any available dates in February or March!

We would also like to let you know about our Emotional / Social Intelligence & Developing Life Skills Programme which we incorporate into our activity programmes. Our experienced instructors facilitate and integrate important life skills into their daily lessons such as listening and communication skills, conflict resolution and problem solving skills, confidence building and overcoming fears, while primarily seeking to promote respect for all individuals and teachers. Would you like your class to improve in these areas?

Here at UISCE we continuously deliver fun interactive courses in a practical learning environment. By incorporating **fun Céilís** into our night activity programme we are confident we offer the best complete school tour packages in Ireland. Don't take my word for it, this is what Caroline O'Brien from Holy Child Girls School had to say....

"Compared to other centres we have visited over the years, UISCE is certainly way ahead in terms of accommodation, food (the best we've ever had at any centre) and activities. The ratio of supervisor to student is excellent. I have been part of these trips for the last 25-30 years in school and I have never slept as well as I did in UISCE. As soon as I get back to school, I will be booking for 2015."

“Another fantastic trip! From the first minute we have been made to feel welcome and the team did a brilliant job looking after all 79 students, both on and off the water. The supervision and standard of instruction were excellent (as always) and we look forward to coming back next year for a 10th time!”
