

Green School News

St. Paul's is very proud to be a "Green School" and we always strive to be as environmentally friendly as possible in our work and play. Two Green flags fly proudly outside our school indicating the work we have done to date in the areas of Litter & Waste and Energy. The next theme on our agenda is that of Water and a new committee was recently elected in order to coordinate our whole school efforts in this regard. The boys and girls on the committee will have the very important job of:

- Assessing how much water we use in St. Paul's at the moment.
- Suggesting ways that we can reduce our water usage.
- Putting together an Action Plan.
- Monitoring this Action Plan.
- Evaluating our efforts.

The committee is made up of two representatives from each class (2nd - 6th), some teachers and Shane, our wonderful caretaker!
