

## Committees in Saint Paul's

Pictured below are the different committees in Saint Paul's that the children and teachers are involved in.

### Our Green School Committee

Our Green School Committee is busy helping to make our school and our planet a more green friendly place! They have worked so hard that we have been awarded two Green Flags as a result! Our first Green Flag was awarded because we proved that we know how to recycle. We were then awarded our second Green Flag as we were learnt how to conserve energy around the school. This year we are busy working on our third Green Flag by learning about the importance of conserving water. Fingers crossed we are awarded it soon!

As well as obtaining these flags for the school, the role of the committee is also to ensure that we retain our flags. The committee are continually monitoring our bins and reminding students and teachers to dispose of their waste in the correct bins. There are energy monitors in each classroom to ensure that lights and computers are turned off when not in use and that doors are kept closed to keep the heat in!

### Our Active Committee

Our Active Committee help the children of Saint Paul's stay fit and healthy. The Active Committee time-table and prepare the games and activities during lunch time. They encourage all the pupils to participate in and enjoy these activities. We were awarded our first Active School Flag three years ago and the committee are busy working on re-applying for our flag again this year. Best of luck guys!

## Coiste Gaeilge

Tá an scoil ag déanamh iarracht Gaelbrathach a fháil. Beidh na páistí agus na múinteoirí ag caint as Gaeilge gach lá. Tá an Coiste Gaeilge ag cabhrú linn leis an nGailge ar scoil.

### Student Council

After a busy election campaign our Student Council were elected in February. This is made up of children from Fourth, Fifth and Sixth Class. The role of the student council is to work with Ms. McGowan and other teachers in the school to share their ideas on how to make the school a better place. They look out for all the children in the school and help them with any problems they may have.

### Our Gardening Committee

Our Gardening Committee are busy weeding, planting and watering to make the school grounds look nice and welcoming! Once the Spring weather finally arrives, the committee will be planting vegetables that hopefully some of us will get to taste once Summer comes!
