Co Meath

Dear Helena,

Everyone who has helped raise crucial money for sick children is very valued by all of us here in Temple Street Hospital. People's generosity and compassion for others is so inspiring. But I've noticed that you have made an extraordinary commitment – of your time, your hard work, your generosity – by participating in our **Trick or Treat** event for three years running!

I really am so impressed by this. Because I know that, although Trick or Treat is a fun and hugely popular event, it still takes amazing people like you – **and wonderful schools like yours – to make it a success**. To inspire staff, children and parents is not easy. To put in the effort and imagination it takes to make your event work from everyone is not easy. And it takes a great person to remain loyal and committed to the event for three years running.

So, I just wanted to mark your extraordinary achievement by thanking you personally and by awarding you the enclosed Certificate of Outstanding Achievement. I know it may not seem like much but your certificate reflects the fantastic reality that so many children have benefited from your support year after year.

Helena, I have the advantage of seeing every day something you can't – the enormous difference your support makes to so many seriously ill children here on the wards, in the Intensive Care Unit, in our Outpatients Unit, in our Operating Theatres and in so many other areas. For that, you should be so very proud.

You are truly amazing!

Yours sincerely,

*Denise Fitzgerald.*
